Hi all,

Attached please find the latest CA Permits Status Tracking Sheet, which reflects PG's NPDES permitting activities in California through September 2019 under Task Order 417 and Task Order 417, Option Year 1.

I have hidden the Task Order 09 permits in the tracking sheet since the period of performance ended in August. If you would like to see those permits, you can use the filter on the EPA Task Order column to unhide those rows.

Note that the period of performance for Task Order 417 ended on September 23rd. All work under the task order was completed.

We are in the process of contacting the Regional Boards to establish schedules for the permits recently assigned under Task Order 417, Option Year 1. I hope to include the milestone dates for those permits in the tracking sheet next month.

Thank you,

Audrey Signorelli
